

Joining Project Cars 2 Lobby

Due to the volume of entries we are getting for the events, it is no longer going to be practical for us to respond to messages during the heats regarding access to lobbies / issues with invites.

With this in mind, please read this guide and ensure you understand how to join your race. If you can't join the lobby, we are unfortunately not going to be able to re-schedule you into later races.

Playstation

Step 1: You will need PS Plus (purchased from the Playstation store:

<https://www.playstation.com/en-gb/explore/playstation-plus/>)

Step 2: Have Project Cars 2 running and be connected to the internet

Step 3: Add 'SMRCeSports' as a friend (this is not essential to join a lobby but it makes it much faster and easier for us to add you in)

Step 4: Around 5 minutes before your allotted time slot, you will receive an invite notification from us. Click on the invite and it will automatically take you into the lobby. If you do not receive an invite, you have provided us with the wrong gamer tag!

Xbox

Step 1: You will need Xbox Live (purchased from the Xbox store: <https://www.xbox.com/en-GB/live/gold>)

Step 2: Have Project Cars 2 running and be connected to the internet

Step 3: Add 'SMRCeSports' as a friend (this is not essential to join a lobby but it makes it much faster and easier for us to add you in)

Step 4: Around 5 minutes before your allotted time slot, you will receive an invite notification from us. Click on the invite and it will automatically take you into the lobby. If you do not receive an invite, you have provided us with the wrong gamer tag! Please pay attention to the commentary and video feed in case the event is running behind schedule: if it is your time slot will clearly be pushed back.

PC

Step 1: Have Project Cars 2 running and be connected to the internet

Step 2: Around 5 minutes before your allotted time slot, the 'SMRCeSports' lobby for your heat will open. Click the 'Quick Play' tab and select 'Browse Online'. You then simply need to click on the lobby and enter the password which you will have been provided.
